BOSTON STEPHONY CONCERT.-The third concert of the Boston Symphony Orchestra at Metzerott's Music Hall last night was received with the enthusiastic satisfaction that the per-formances of this organization always bring. The high standard of artistic merit has been preserved so long and so consistently that excellence is expected. The program last night
met with appreciation throughout. Much attention was devoted to Dvorzak, and with
of Geo. Truesdell. S. F. Wheatley and R. H. gratifying result. The audience received the suite in D with so much warmth that an exception to the custom of the orchestra was made by a response to a demand for repetition. There is no more complete dem-onstration of the artistic proposition that good general effect can only be attained by a close and elaborate attention to detail. The pergeneral effect can only be attained by a close and claborate attention to detail. The per-formance of Beethoven's Eighth Symphony, the Wagner "Kaiser March," were calculated to impress the auditor with the loftiness of Mr. Nikisch's artistic purposes and the patience and industry that he must spend in reaching them. The soloist of the occasion was Mme. Basta Tavary. She sang "Non Mider" from "Don Giovanni" and an aria from "Traviata" with that as he was getting old some younger man take his place. night proved his versatility by presenting at Albaugh's "Richelieu" in a manner that commanded the respect and appreciation of a large audience. His conception of the wily cardinal is evidently the result of much thought and study, and if at times there is a lack of finish in his performance there are flashes of power that demonstrate the earnestness of his character-ization. The contrast between the brutality of "Richhard III" and the intellectuality of "Richbard III" and the intellectuality of "Richelieu" brought out Mr. Keene's best powers and manifested the improvement he has made in his art. Mr. Keene was well supported, Frank Hening making a forceful Baradas, Frederick Paulding a frank and mauly De Mauprat, Maida Craigen a charming Julie and Maud Dudley an acceptable Marian de Lorme. Tonight Mr. Keene will repeat "Richard III." "LITTLE TIPPETT."-Duncan B. Harrison's

comedians will present at Albaugh's on Monday next an adaptation of Alexander Bisson's comedy, "Little Tippett." The translation and English arrangement are by Harry and Edward Paulton. "Little Tippett" is well con-structed as to incidents and is full of uproarious fun. The complications arise over the dis-puted paternity of a child, and the situation puted paternity of a child, and the situations are extremely funny. The company is headed by that excellent comedian, Mr. Chas. Bowser, ably seconded by Harry J. Morgan, the young English comedian; Harry Allen, Frederick Thompson, Henry J. Badley, Violet Black, Helen Morgan, Mrs. Harry Bloodgood, Eveline Granville and others, not forgetting the two little babies in the play, whose mixing up is the source of all the merriment, complications and source of all the merriment, complications and side-splitting laughter with which the play abounds. THE FAST MAIL.—The railway is a fruitful source of material for the dramatist in search of picturesque effect, and "The Fast Mail," which will be presented at Harris' Bijou Theater next week, is one of the most popular per-formances that this field has produced. Seats for the engagement are now on sale and the business that this attraction has done elsewhere indicates that the coming week will witness an especially large attendance.

branch of the human family from which their ancestors or a portion of them came, why not use the word African? It means something. There would be just as much common sense in striving to make the national designation of the people of England "white" instead of "English" as in trying to permanently fasten the name "negro" on one eighth of the American people. It would be less harmful because it would embrace all the people of England. I am not advocating or defending the use of that silly absurdity, "Afro-American," or even the word "colored," though the last named is, I think, most sensible of all, and sanctioned by long usage in a respectable sense.

Miss Anthony Arrives-Preparations for th Coming Convention The National American Woman Suffrage As-

ociation will hold its annual convention at Metzerott's Music Hall next week. Miss Susan B. Anthony, the perennial champion of the that this is her twenty-fifth annual pilgrimage to the national capital for the purpose of presenting to Congress the claims of her sex for equal suffrage. She thinks that the cause is progressing, and the fact that her appointment by Gov. Flower as a member of the New York board of charities has just been confirmed by the state senate seems to indicate that Miss Anthony, at least, is advancing in public favor. The convention will open Sunday afternoon at So'clock with a sermon by Rev. Anna F. Eastand Fields' Own Company, comprising besides man of the Congregational Church. Senator Carey of Wyoming will open the convention proper Monday morning with an address of welcome to the delegates. Sessions will be held daily from Monday until Thursday, and many prominent woman suffragists are expected to be in attendance. Their headquarters will be at Willard's Hotel, where Miss Anthony is already domiciled in room 62. THE THEATRICAL MECHANICS.

> Their Relations With the National and th Academy of Music. The trouble between Mr. Rapley, proprietor

of the National Theater and Academy of Music, and his stage employes has not been settled to the satisfaction of the Knights of Labor. Mr. James McGuirk, chairman of the executive board, D. A. 66, K. of L., has prepared the following statement regarding the case: "The theatrical mechanics are an organized

body, affiliating with the Knights of Labor and Federation of Labor of the District. A moder ate scale of wages was made out and presented Shenezer A. M. E. Church, corner of D and to Mr. Rapley for his acceptance. He, how-4th streets southeast, to protest against the ever, refused to recognize the scale or make wrongs of the negro race, especially in the any advance whatever. Under these circumsouth, and to petition Congress for amend- stances the mechanics deemed it advisable to posit for ments and alterations to the District laws. A petition prepared for presentation to Congress by Arthur H. Harris, president of the National Council for the Amelioration of the Condition of the Colored Race, an organization which had its origin in Philadelphia eight years ago and now has branches in several of the larger and positively refused to make any compromise.

Thus, with wars made with the same large and positively refused to make any compromise.

Thus, with wars made with the same large and positively refused to make any compromise. and now has branches in several of the larger cities of the United States, was presented and signed by a number of persons.

One of the purposes of the petition is to have it made a capital offense to appear before a mob as a complainant, giving evidence which contributes toward the lynching of any person. It also asks an alteration of a local law relating to enable the petition of the petition of the petition of the petition of the petition and the petition of the United States, was presented and positively refused to make any compromise. Three visits were made with the same result. The executive board then reported back to the district, when it was determined by a unanimous vote of delegates present that Mr. Rapley be immediately notified that until such time as he decided to recognize the Theatrical Assembly and advance their wages from \$6 to \$8 per week and \$33\% cents of the United States, was presented and signed by a number of persons. per hour overtime organized labor would re-fuse to patronize his theaters. These demands are modest and do not compare favorably with other cities, where wages range from \$9 to \$10 per week and 50 cents per hour overtime. The work is at times very laborious, and on Saturday nights they are compelled after the per-formance is over to work often until 2 a.m., formance is over to work often until 2 a.m., Sunday removing scenery without extra compensation. It is true he has of his own volition advanced the men from \$6 to \$7 per week, with 33% cents per hour overtime, but has persistently refused them recognition as an organization. Mr. Rapley can give no valid reason for his refusal to recognize the theatrical mechanics, as he already recognizes the Musicians' Assembly and gets along with them on the most amicable terms."

The Cattle Market. Africa or anywhere else in the world who called themselves or were called by their neighbors "negroes." The term negro is simply a derivative from the Latin word niger, meaning black. I am informed that it is the only Spanish equivalent of the English word black. "Negro" carries with it nothing of racial or traditional interest to make it desirable as a coganomen, even if all the people in this country were pure blacks or Africans. Its only significance is the fact of its being the original from which was derived the opprobrious epithet "nigger," a poor reason. I submit, for its adoption by 8,000,000 people as a distinguishing title.

Is not "American" good enough and sufficiently comprehensive to embrace all of our population? If there are colored people who wish their mention in public prints and speech to carry with it a designation of the continent or branch of the human family from which their ancestors or a portion of them came, why not use the world Africans.
